Project English Poster Sessions A bldg. 2F (Zones A, B), 3F (C), 4F (D)

Project English is the final course offered to 3rd and 4th year students studying in the Department of International Business.

Each group of students has selected a business project which they have been working on since April. The poster session represents the halfway point of the course and is a chance for them to receive feedback on their ideas before they do final presentations in July.

The posters will be displayed for two weeks and you can view the posters anytime and leave comments. There will also be four sessions where you can talk directly to group members (see left).
