1.Operation Manual and Revision History

1-1. Operation Manual

This manual shows how to use Ritsumeikan University Search Engine of Academic Record and Career History of Young Researchers (hereafter "Ri-SEARCH").

"Ri-SEARCH" is for all graduate students, who are enrolled in Graduate Schools' regular courses of Ritsumeikan University, to register their information such as research achievements and activities, and to open their information to those who are interested in them.

To register your research activities and achievements gives you the benefits as below.

■To print out a Research Achievements Report, and make an electronic application/approval of GAKKAI Scholarship become available.

Research activities and research achievements registered/stored in this system can be printed out as a Research Achievements Report. A Research Achievements Report may be designated as an attached document when submitting a Master's thesis or Doctoral dissertation, and applying for research grants and scholarship programs in RU. Please use this function in these cases. You can also include this Research Achievements Report when submitting your curriculum vitae on job hunting. Moreover, electronic application/approval of GAKKAI Scholarship is available (except for students who are enrolled in Professional Degree Program).

■Benefits of publishing Research Achievements

You can manage your own research activities and research plan by registering/storing your own research activities and research achievements etc. in this system. In addition, opening your activities and achievements to the public becomes an opportunity to construct a social networking among researches.

■For those who are inside/outside of Ritsumeikan and interested in activities of young researchers

Each information is opened to the public on the website according to choices of young researchers who registered their own information. This research information can be accessed anytime by all including those who are outside of Ritsumeikan University. When you access to this system, you can reach the information you want by using several search items such as research field, affiliation, free word etc.

1-2. Revision History

Ri-SEARCH is revised/improved appropriately by reflecting opinions/requests of graduate students, users of this system. Revision history according to revising/improving this system is as below.

Updated	Items to be inputted and changed	Detail of the change
2021.04	Start operation of new Ri-SEARCH	-Target User was changed from only doctoral students to all graduate student. -Implemented the function of Electronic application/approval of GAKKAI Scholarship.
2022.03	Partially changed the documents to be submitted for GAKKAI Scholarship Application	-Implemented the required item, Form D.
