

Spring Semester 2022 Ritsumeikan University Tuition Reduction and Scholarship Application for Privately-Financed International Students

Dear Ritsumeikan University 2022 Spring Semester Enrollees,

Greetings from the Ritsumeikan University International Center.

There is a period once per year in which we accept applications for tuition reduction. Students that were admitted in April can apply each year in early April, and students that were admitted in September can apply each year in late September.

First year students' tuition reduction is as follows. Please note that graduate students who have not received a notification from the university that they have been selected for a 100% tuition reduction before enrollment must apply immediately after enrollment.

【Tuition reduction for the first year of enrollment】

- Undergraduate Students: It will be decided before admission based on the results of the entrance examination.
- Graduate Students: Those who would like tuition reduction must apply as soon as they matriculate.

The application guidelines will be posted on the following site by the middle of March, so please check. In addition to the application guidelines, various information on tuition reductions and scholarships will be posted on the following sites, so please check and utilize them.
