ご挨拶
Message from the President

The world is experiencing drastic change which is beyond our estimation and prediction. Today, what we need is the capacity to find new meaning from change and accumulate rich inspirational experiences that will help us in this endeavor. Ritsumeikan University hopes to contribute to humankind by searching for new forms of knowledge and presenting that knowledge to the world.

The University, under the Top Global University Project, will continue to pursue new forms of education and research that will lead the way to the future. In spring 2016, we established the first undergraduate joint degree program in Japan in collaboration with American University. Additionally, in April 2018, together with the Australian National University, we established the first college-wide dual degree program in Japan with the opening of the College of Global Liberal Arts. Looking forward, we will promote groundbreaking globalization efforts while working toward the United Nations Sustainable Development Goals (SDGs) and solutions to the social problems facing Japan and the world.

As a private comprehensive university with both a global presence and deep connections to the local communities in which we operate, we will continue to strive to become a globally recognized university.

Top Global University Project

With the goal of raising the international competitiveness of Japanese higher education, the Japanese government actively supports Japanese universities that conduct world-class education and research as well as to lead the internationalization of the country.

TOP GLOBAL UNIVERSITY

立命館は、「世界に開かれた立命館」を目指し、1980年代半ば以降、日本の大学の国際化をリードしてきました。1985年に国際センター設置、1988年には西日本初となる国際関係学部開設、2000年には日本国内で最初の本格的な国際大学として、立命館アジア太平洋大学を創設しました。これからも総合大学としての強みを活かし、教育・研究のグローバル化に一歩をあげて取り組みます。

Ritsumeikan, after the mid 1980’s, has rapidly promoted internationalization with the aim of becoming “Ritsumeikan that is open to the world”. Ritsumeikan established an international center in 1985 along with the first College of International Relations in Western Japan in 1988. This was then followed by the establishment of the first true international university in Japan, Ritsumeikan Asia Pacific University (APU), in 2000. We continually strive for and promote the globalization of education and research by utilizing our strengths as a comprehensive university.
