研究倫理eラーニングコース(e-Learning Course on Research Ethics)[eL CoRE]

Japanese English

The e-Learning Course on Research Ethics is based on the book "For the Sound Development of Science-The Attitude of a Conscientious Scientist." It provides researchers with an opportunity to learn about research ethics at any time or anywhere they may be.

This e-Learning Course provides scientists engaged in all fields of research, including the humanities, social sciences and natural sciences, guidance on essential points of conduct in carrying out their research and in communicating their results within the science community and to the larger society. This course compiles essential points on how people engaging in research in all fields from the humanities and social sciences to natural sciences should conduct their research and communicate their results within the science community and to the larger society.

This course contains what researchers should know and bear in mind when conducting research, including a code of ethics, a code of conduct, methods of presenting research results, and appropriate use of research funds.

[Features of this e-Learning Course]

■ Feature 1

Anyone can take the course free of charge. There are no age requirements,

There are no age limits, educational prerequisites, professional or other qualifications required to take the course.

■ Feature 2

Group registration and management available.

Groups of people can apply for this course. The administrator of each group is authorized to monitor each member's progress in doing the course on a

■ Feature 3

Many examples are provided to enhance the learner's understanding.

It takes about 90 minutes on average to do this animation-driven course. A Certificate of course completion is awarded to those who successfully
