How I learned foreign languages When I was a student /

学生時代どのように外国語を学習したか

Looking back, I suppose I learned both French and Japanese in the traditional ways: I memorized a lot, studied grammar, and practiced speaking and writing. I didn't do a lot of presentations, essays or anything creative at all. Even so, I remember being motivated and inspired by my teachers. They taught me that learning languages would open doors to the world. They were right! In university, I studied abroad in Hamamatsu and fell in love with Japan. That's why I am living and working here now!
