Important! Check!

To All New Students!

Let's Use manaba+R

1 manaba+R

The University is introducing a learning support system called manaba+R. manaba+R is used for classes as well as submitting report examinations. It also contains useful information for student life such as announcements from the university and details regarding cancelled and makeup classes.

2 Uses of manaba+R

Classes

マイページ　コース　お知らせ　ポートフォリオ　検索　メモ一覧　出席カード　English

11022:現代の経営（J）

Some classes take attendance using manaba+R.

小テスト　アンケート　レポート　プロジェクト　成績（採点結果）　掲示板　コンテンツ（教材）

提出記録　授業計画表

You can submit tests and reports and answer surveys as specified by the course instructor.

コースニュース　スレッド（更新順）

Announcements from the University

You can check information related to courses such as course registration, academic records, cancelled and makeup classes, and recruitment for study abroad programs, etc.

Receiving Information on the College Message Board

Information about classes, scholarships, and student life will be posted on a page for your specific college (message board). You can check a wide range of information by logging into manaba+R.

Course Syllabus

You can search for and check a course's syllabus.
*A syllabus contains important information regarding courses offered during the academic year such as "Course Outline and Method" and "Student Attainment Objectives".

Check manaba+R features here. ->

⚠️ You must log in to manaba+R to check the information about campus life like class cancelation, or result of class registration.
Some cases like you could not receive the information from university correctly or you could not check the class registration status were reported.
Please make sure that university will never take any remedial action towards the detriment which occurred by using any services other than the university's official ones.
Furthermore, please do not use your ID and password used in the university's official service to other apps to avoid the trouble.
University's official services related to "information about campus life" only indicate "manaba+R", "CAMPUS WEB", and "Ritsumeikan mail （Microsoft365）".
