

SOFT / HARD 2023

10th International Symposium on Functionalization and Applications of Soft/Hard Materials (Soft/Hard 2023)

5th International Symposium on Hetero Structure and Advanced Materials

KAKENHI Grant-in-Aid for Scientific Research (S) Final Symposium

***Integration core/rarcadia 1F R101~103,
Biwako-Kusatsu Campus, Ritsumeikan University***

March
3-5
2023

Joint symposium of Soft/Hard 2023, 5th International Symposium on Hetero Structure and Advanced Materials, and KAKENHI Grant-in-Aid for Scientific Research (S) Final Symposium will be held at the Biwako-Kusatsu Campus (BKC), Ritsumeikan University in Kusatsu, Japan on March 3-5, 2023. The aims of the symposium are exchanges among the material scientists in Asia, Europe, Oceania and the Americas, and promotion of international cooperation between industry and academia.

All fields of materials science without artificial boundaries will be considered as topics of the symposium; thus, the symposium includes the fundamentals and applications of materials, multidisciplinary approaches, and related areas of other sciences and technologies. We will be most pleased to welcome you herein and we hope you will enjoy a pleasant time.

PROGRAM

March 3, Friday	General meeting & Banquet
March 4, Saturday	Sectional meeting
March 5, Sunday	Campus & Lab tour, Excursion

ORGANIZER Research Center for Advanced Materials, Ritsumeikan University

SPONSORS –KAKENHI Grant-in-Aid for Scientific Research (S), JSPS
–Research Organization of Science and Technology, Ritsumeikan University
