

Announcement: Shuttle Bus Operation Schedule for the Academic Year 2025

With this notice, we hereby inform you of the timetable for the Ritsumeikan University Tri-Campus Shuttle Bus for the 2025 academic year as per the attached document, “AY2025 Shuttle Bus Information.”

The university operates the tri-campus shuttle bus service for the purpose of promoting student interaction across campuses, especially in extracurricular activities, and improving convenience for students. Therefore, while we have strived to establish a timetable that is convenient for students again in AY2025, we have had no choice but to make the following changes due to changes in social conditions including a decrease in the number of bus companies that can ensure steady service between the campuses, and a rapid rise in operating costs.

We will continue to consider measures to help activate extracurricular activities and promote student interaction across campuses. We apologize for the inconvenience this may cause to our students, faculty, and staff who use this service regularly, and we kindly request your understanding.

<Changes from AY2024>

Adjustments to the bus operating schedule and timetable due to changes in the academic calendar and class timetable
Suspension of shuttle bus service on Saturdays and during long vacations
