## WHAT TO EXPECT

### How to get published: Avoiding Rejection

*Ms Victoria Babbit*

*Delivered in English language*

Each year millions of articles are rejected by journals. While experiencing rejection in the publishing process is a normal aspect of every researcher's work life, there are ways to reduce the rate of rejection. This session will look at some of the main reasons for articles being rejected and provide tips for avoiding that fate. The session will look specifically at journal selection, manuscript preparation, publishing ethics, and the peer-review process.

### Author support workflow

*Mr Ko Konno*

*Delivered in Japanese language*

Corresponding authors affiliated with participating institutions of our Read & Publish agreement are allowed to choose open access publishing via the agreement. This presentation describes the author workflow for those who would like to choose the open access option.
