How I learned foreign languages When I was a student /

学生時代どのように外国語を学習したか

When I was a junior high school student, I liked watching foreign movies and listening to foreign music, which greatly helped me learn English. I was especially drawn to watching movies, so I watched at least two or three movies a week back then. I also studied abroad in the U.S. twice, once in high school and once in graduate school, and learned a lot there, too.
