Commuting Rules

◎Commuting by car is prohibited under any circumstances.

We ask you to refrain from commuting by motorcycle.

***If you have to commute by motorcycle for unavoidable reasons, you must complete registration procedure.**

As a general rule, Ritsumeikan University allows commuting to the university on foot, by bicycle, or by public transportation such as bus or train, while prohibiting students from commuting by car under any circumstances.

While we ask students to refrain from commuting by motorcycle, it is permitted at Osaka Ibaraki Campus (OIC) for those who have unavoidable reasons on the following conditions: they complete “Motorcycle Registration” after attending a “Driving Safety Lecture” and they park motorcycles in the Motorcycle Parking Lot. (Refer to page 14 - 17.)

■Why is commuting by car prohibited and commuting by motorcycle discouraged?

1. Students have several public transportation options available.
2. The number of commuters is very high on the main roads near OIC, and there are also many large-sized vehicles.
3. OIC is located in a quiet residential area. Noise, traffic obstruction, and parking without permission could cause a disturbance to the residents in the area and their living environment.

■Violators of these rules will be penalized under school regulations.

In the event of violation of the university’s commuting rules, violators will be given necessary guidance and disciplined strictly under the school regulations.

◎Registration is required for commuting by bicycle.

(For more details, refer to page 5 - 9.)

You may not enter the campus with an unregistered bicycle.

At OIC, students must register bicycles to commute by bicycle to the campus in order to prevent traffic accidents and disturbing local residents, and to fulfill one’s duty as a member of society that respects and supports the environment and local community.

In addition, you are obligated to take the “Driving Safety Lecture”, complete your anti-bicycle theft registration, enroll in bicycle personal liability insurance (covering at least 100,000,000 yen), and install a headlight and locks on your bicycle.

■ Why is enrolling in liability insurance required?

In the OIC area, its excessive traffic has resulted in dangerous situations not only during commuting hours but at all times. Bicycle accidents have increased rapidly in recent years. Considering risks of being involved in or causing an accident, it's important to enroll in personal liability insurance. As there have been many cases where cyclists caused accidents and bore responsibility for a large amount of compensation for the victims, those who commute by bicycle are obligated to enroll in the insurance.

Commuting by Bicycle

You must register your bicycle beforehand to commute by bicycle. You may not use your bicycle for commuting without a registration sticker placed on it. Also, in the event of unauthorized parking or other misconduct, you will be penalized under school regulations and your registration will be revoked.

■Bicycle Registration Requirements

1. Enrollment in anti-bicycle theft registration (自転車防犯登録, *jitensha bohan toroku*) under your name.
2. Enrollment in personal liability insurance covering at least 100,000,000 yen (For more details, refer to page 10)
3. Headlight installation

To commute by rental bicycle, a “Rental Bicycle Registration Certificate” issued by the university is necessary. It has been already confirmed that each rental bicycle shop takes anti-crime and safety measures required for rental bicycles such as anti-bicycle theft registration, anti-theft lock, and headlight. Therefore, you do not have to have a bicycle inspected.

Please be informed that rental bicycle users are also required to enroll in personal liability insurance. Please bring the items listed below when registering the bicycle and receive a “Rental Bicycle Registration Certificate”. Please carry the certificate with you at all times and show your certificate when asked to do so by the parking lot staff.

4. Rental bicycle membership card, IC card or other items which prove your rental bicycle agreement
5. Your bicycle to register

■ Bicycle Commuting Cautions

Students commuting by bicycle can cause complaints from nearby residents and people using the roads near the university. It is one of our roles as a university to form a better environment.

Students should be conscious of these things and should abide by the points below when commuting by bicycle.

1. Please do not cause danger or disturbances to local residents by parking your bicycle on the road, leaving your bicycle unattended for a long period of time, or cutting through primary and junior high school zones or private properties.

***Some areas surrounding stations in Ibaraki city are designated as No Parking Zones.**

2. In the event of a traffic accident, please report to the nearest police station and contact the Campus Information Center (on the 1st floor of Building A) as soon as possible.

3. Please follow the five rules to ensure safety when riding a bicycle.

Five rules for safe bicycle riding

(1) In principle, cyclists should ride on the street and use sidewalks only in exceptional cases.

(2) Cyclists should ride on the left side of the street.

(3) Cyclists must reduce speed on sidewalks and give pedestrians the right of way.

(4) Cyclists must obey traffic rules.

Cyclists are prohibited from riding under the influence of alcohol, riding double, or riding side by side.

Cyclists must use bicycle lights at night.

Cyclists must obey traffic lights at intersections and check for safety after coming a full stop.

(5) Children must wear a helmet.

4. The revised Road Traffic Act, effective on April 1, 2023, urges cyclists to wear a helmet. Although cyclists without a helmet will not be penalized, students are recommended to wear it for their safety.

■ Cautions about Bicycle Parking Lot Use

1. Only bicycles which have registration stickers attached are allowed to park in the Bicycle Parking Lot.

Any bicycles with expired stickers or without stickers are not acceptable to park. Inspections of the Bicycle Parking Lot are conducted periodically and these unauthorized bicycles will be locked and removed. Please understand that we will not unlock these bicycles unless the owners complete all the necessary procedures properly to register their bicycles.

2. Operation hours of the Bicycle Parking Lot are as follows: 7:00 a.m. - 0:30 a.m.

3. Please follow the posted instructions and directions from the staff in the Bicycle Parking Lot. Always lock your bicycle while parked, and make an effort to use two locks on your bicycle, such as a chain lock, to prevent thefts. At OIC, you are strongly encouraged to use two locks on parked bicycles and motorcycles as stolen bicycles could be used for crimes.

4. As cycling in the Bicycle Parking Lot is not allowed, walk your bicycle.

5. In the Bicycle Parking Lot, be sure to use a bicycle rack to park.

6. Bicycles left unattended in the Bicycle Parking Lot for a long period of time will be disposed of.

7. Use an anti-theft net for your bicycle basket in an attempt to prevent thefts.

8. In the event of a theft, report to the Campus Information Center (on the 1st floor of Building A) and the nearest police station.

9. The university bears no responsibility for any accidents or thefts occurring in the Bicycle Parking Lot.

Anti-Bicycle Theft Registration

To register your bicycle with the university, you must first complete anti-bicycle theft registration.

[Anti-bicycle theft registration]

In order to improve a situation which interferes with citizens' everyday life such as the increasing number of bicycle thefts and stolen bicycles abandoned in some areas including surrounding areas of the stations, the “Act on Promotion of Safe Use of Bicycles and Comprehensive Advancement of Measures for Bicycle Parking” was enforced in June of 1994.

- Bicycle owners are obligated to enroll in anti-bicycle theft registration under the law.
- In case of a bicycle theft, anti-bicycle theft registration can raise possibility of early discovery of the stolen bicycle.

***You have to complete the procedure by yourself.**

[Have you registered a bicycle you bought for anti-bicycle theft registration?]

*Please confirm that the registration number on an anti-bicycle theft registration sticker attached to your bicycle matches ones on the documents below before registering your bicycle.

- (1) Anti-bicycle theft registration form
- (2) Proof of purchase for your bicycle
- (3) Warranty certificate or receipt of your bicycle showing the bicycle serial number

[When receiving a used bicycle from the previous owner, make sure to enroll in anti-bicycle theft registration]

***You must complete anti-bicycle theft registration. (Register the bicycle under your name.)**

Anti-bicycle theft registration is available at the OIC Shop.

(Contact at 072-645-4103, open on weekdays from 10:30 a.m. to 4:00 p.m.)

To register your bicycle at the OIC Shop, the following items are required:

- (1) **A bicycle ownership transfer certificate completed by the previous owner** and proof of cancellation of the old anti-bicycle theft registration

***For bicycle and motorcycle security registration at OIC SHOP, a transfer certificate completed by the previous owner is required.**

- (2) Photo ID (student ID, official certificate with a photo attached such as passport or driver's license)
- (3) Registration fee of 800 yen

*The amount can vary depending on each local municipality.

- (4) Your bicycle

*Please make a record of the registration number issued after the above procedures.

When transferring ownership of your bicycle to someone else, please make sure to cancel your anti-bicycle theft registration so that the new owner can complete their anti-bicycle theft registration.

Personal Liability Insurance Membership Details

OIC is situated in Ibaraki city where over 10,000 vehicles travel on its main roads every day. Bicycles are the most common mode of transportation of its residents and the number of bicycle users in the city makes up one fourth of the total amount of traffic. Given these facts, the city has a heavy traffic with vehicles and bicycles.

In Osaka Prefecture, the number of bicycle accidents has been reduced by 21% from 2007 to 2013. In Ibaraki city, however, the number of bicycle accidents has remained relatively unchanged in the same period of time. The accident rate per 1,000 people places Ibaraki city as the 4th highest in Osaka Prefecture.

In recent years, the rates of bicycle accidents with pedestrians and other bicycles have been increasing. The transition in the numbers of bicycle accidents from 2003 to 2013 shows the following facts: the numbers of bicycle accidents with automobiles and motorcycles have greatly decreased by 33% and 44%, respectively; and the numbers with pedestrians have increased by 14% and with other bicycles have decreased by only 6%, which have remained high.

If you cause an accident with a pedestrian or another cyclist, you must bear full responsibility for compensating the victim, and the amount of compensation is the same as when you were driving an automobile or motorcycle.

The university has obligated students who commute by bicycle to enroll in personal liability insurance whose amount of compensation is at least 100,000,000 yen. All students commuting to OIC by bicycle must enroll in the insurance with compensation equivalent to the above as a precaution.

Your insurance should be valid until the end of your minimum period of study.
