

Fine Synthetic Chemistry Seminar (2025)
Special Lecture

Dr. Gregory J. P. Perry

Lecturer in Organic Chemistry
University of Southampton, UK

**「 Decarboxylative Metalation
Reactions 」**

June 25th (Wed.) 1:30 pm
@ Co-Learning House II CII Lecture Room

Dr. Perry is recognized as a distinguished chemist
in organic synthesis utilizing sulfur(IV) and
carboxylation/decarboxylation strategy

**We welcome participation of many faculty members
and graduate students!**

Toshifumi Dohi (EX:6181) Fine Synthetic Chemistry Lab.

【Co-sponser】 Ritsumeikan-Grobal Innovation Research Organization
Effective Utilization of Organic Resources for Spatiotemporal Control of Materials
