

Fine Synthetic Chemistry Seminar (2025)
Special Lecture

Professor
Thomas Wirth
Cardiff University, UK

**「 Intensification and Electrification
of Flow Chemistry 」**

May 23rd (Fri.) 3 pm
@ Co-Learning House II CII Lecture Room

Professor Wirth is a pioneer of new organic selenium
and iodine chemistry as reagents and catalysts

**We welcome participation of many faculty members
and graduate students!**

Toshifumi Dohi (EX:6181) Fine Synthetic Chemistry Lab.
Yasuyuki Kita Research Organization of Sci. and Tech.

【Co-sponser】Ritsumeikan-Grobal Innovation Research Organization
Effective Utilization of Organic Resources for Spatiotemporal Control of Materials
