

Fine Synthetic Chemistry Seminar (2022)
Special Lecture

Professor

Thomas Wirth

Cardiff University, UK

**「 Alternative Strategies with Iodine:
Fast Access to New Iodine(III)
Compounds 」**

September 30th (Fri.) 3:30 pm
@ Link Square Seminar Room 2A

Professor Wirth is a pioneer of new organic selenium and iodine chemistry as reactants and catalysts

**We welcome participation of many faculty members
and graduate students!**

Toshifumi Dohi (EX:6181) Fine Synthetic Chemistry Lab.
Yasuyuki Kita Research Organization of Sci. and Tech.

【Co-sponser】 Ritsumeikan-Grobal Innovation Research Organization
Effective Utilization of Organic Resources Leading to Spatiotemporal-Controlled Materials
