What to bring to the new students' orientation

● **Smartphone, tablet or PC**

On the orientation day, we will practice logging in to the university portal using either of the items.

● **Rainbow ID and the password**

You will need the Rainbow ID and the password for using university Wi-fi and to log in to the student portal.

Your personal ID and password will be notified on Ritsu-mate on Tuesday, September 16th PM4:00. Make sure to check them and have them ready when you need them during the orientation.

● **Pens and notepads**

Important information about the schedule and course registrations will be announced and explained during the orientation so you may need to take notes. Highlighters and stickies for marking the relevant pages in the guidebooks are also recommended.

● **Bag**

A few booklets and many handouts will be given out. Please bring a bag if necessary.
